

Press Release

RECARO Young Line

The new RECARO Akuna – a travel system that satisfies all your requirements

Marktleugast / Germany, September 2009. The multifunctional RECARO Akuna travel system has not only been a perfect success with its design, but also fulfils every wish with regard to user friendliness.

The stroller for the RECARO Akuna is impressive thanks to its ultralight aluminium frame, and is extremely easy to fold together. Its exceptionally small folded size (30 x 37 x 106 cm) allows the stroller to be fitted to even the smallest vehicle. The six ball-bearing, spring-mounted wheels and the stroller's slim silhouette contribute to its sporty design. The stroller's backrest can be adjusted 3 times and the reclining position lets the child sleep comfortably. A bottle holder is also included on the sporty stroller.

A special feature to note is the option of placing the stroller's sports seat forward or backward. Then parents can have either direct eye contact with their little one or the child can discover the world by facing it, although parents can keep an eye on their baby through the viewing window in the canopy.

The RECARO Young Profi plus infant carrier can be adapted to the RECARO Akuna stroller easily. Simply unbuckle the baby shell, take it out of the car and attach it to the stroller.

Stiftung Warentest certified the Young Profi plus infant carrier in 2007 as having the best accident safety when used in combination with the RECARO Isofix base.

For longer excursions with the baby, the RECARO Akuna stroller can be used together with the sporty and spacious carry cot with a firm exterior frame from birth. To be prepared for all kinds of weather, a sleeping bag, mosquito net, sun umbrella and raincover are available as accessories. Furthermore, a practical pamper bag is offered in two different sizes.

The high-quality Bellini fabric of the RECARO Akuna ensures a comfortable seat climate and is easy to clean. The travel system RECARO Akuna will be available in specialist shops from November 2009 in the covers "Asphalt/Grey" and "Cherry/Black".

RECARO-PR

September 15th 2009

About the company:

Recaro is an independent company in the internationally active Keiper Recaro Group which operates at more than 30 locations world-wide. Around 8,300 people are employed in the three divisions Keiper, Recaro and Recaro Aircraft Seating in the manufacture of high quality products in the field of mobile seating for vehicles and aircraft. The group achieved sales of approximately 1.2 billion Euros in 2008.

Recaro is a well established company; founded in 1906 by master saddler Wilhelm Reutter initially as a body factory. Today, Recaro can look back on over 100-years of company history. Reutter produced car bodies for vehicles such as the Porsche 356, VW Beetle, BMW 328, Horch and many other well-known brands. The Recaro brand evolved from combining the name REutter with CAR body. The first Recaro sport seat was presented in 1965. After the merger with the Keiper company in 1969, Recaro operated as an independent member of the Keiper Recaro family and is constantly redefining mobile seating with revolutionary innovations.
